Adieu (Our Beloved) Madiba.

You taught the world that actions speaks louder than words that love is the most priceless weapon that fights all obstacles of life, You showed us that good name is better than wealth, that discipline is the only key to actual growth and also that faithfulness in small things is the best legacy.

Above all your life affirmed that people regardless of their respective culture, race, ethnicity and differences can still hone in acceptance as the most critical competitive advantage and South Africa`s diversity till date is a factual testament to these principles.

We all cannot dispute that you have your place in our heart and history will always emulate your legacy as a critical realistic model for actual growth, success and prosperity.

Your life, your leadership and most of all your faithfulness in little things is your true lasting legacy, commemorated across the globe and will fundamentally craft Africa's Global Excellence.

May your soul abide in peace.

----- All is well -----
