

COUNTERCLOCKWISE

Anupam Naskar
Chemical Engineer
M.B.A, IIT KANPUR

I had an old ceiling fan ,refused to rotate
Irritated every day with an awful noise innate
Disturbed my peace and worsened my sleep
Like rusted wheel of broken relationship
I was awake and i was restless
Lost in shadows of night sleepless
I saw you there in thousand mile
Thinking me with an unknown smile
And I become tired of everything
Time is not enough for such feeling
